Homeowner vacancy rate (percent) [8]	2.3	(X)
Rental vacancy rate (percent) [9]	6.2	(X)
HOUSING TENURE		
Occupied housing units	801	100.0
Owner-occupied housing units	604	75.4
Population in owner-occupied housing units	1,575	(X)
Average household size of owner-occupied units	2.61	(X)
Renter-occupied housing units	197	24.6
Population in renter-occupied housing units	360	(X)
Average household size of renter-occupied units	1.83	(X)

X Not applicable.

[1] Other Asian alone, or two or more Asian categories.

[2] Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.

[3] One of the four most commonly reported multiple-race combinations nationwide in Census 2000.

[4] In combination with one or more of the other races listed. The six numbers may add to more than the total population, and the six percentages may add to more than 100 percent because individuals may report more than one race.

[5] This category is composed of people whose origins are from the Dominican Republic, Spain, and Spanish-speaking Central or South American countries. It also includes general origin responses such as "Latino" or "Hispanic."

[6] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

[7] "Family households" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. "Nonfamily households" consist of people living alone and households which do not have any members related to the householder.

[8] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been sold but not yet occupied; and then multiplying by 100.

[9] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent," and vacant units that have been rented but not yet occupied; and then multiplying by 100.

SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2007-2011 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

West Indian (excluding Hispanic origin groups)	1	+/-3	0.0%	+/-0.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

2007-2011 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Youngstown village, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
EMPLOYMENT STATUS				
Population 16 years and over	1,569	+/-132	1,569	(X)
In labor force	983	+/-119	62.7%	+/-5.4
Civilian labor force	983	+/-119	62.7%	+/-5.4
Employed	910	+/-111	58.0%	+/-5.1
Unemployed	73	+/-42	4.7%	+/-2.6
Armed Forces	0	+/-89	0.0%	+/-2.0
Not in labor force	586	+/-97	37.3%	+/-5.4
Civilian labor force	983	+/-119	983	(X)
Percent Unemployed	(X)	(X)	7.4%	+/-4.0
Females 16 years and over				
Population 16 years and over	830	+/-84	830	(X)
In labor force	512	+/-77	61.7%	+/-7.2
Civilian labor force	512	+/-77	61.7%	+/-7.2
Employed	477	+/-75	57.5%	+/-7.3
Own children under 6 years				
Population	105	+/-46	105	(X)
All parents in family in labor force	101	+/-46	96.2%	+/-5.9
Own children 6 to 17 years				
Population	372	+/-73	372	(X)
All parents in family in labor force	317	+/-66	85.2%	+/-9.6
COMMUTING TO WORK				
Workers 16 years and over	876	+/-105	876	(X)
Car, truck, or van -- drove alone	843	+/-103	96.2%	+/-2.4
Car, truck, or van -- carpooled	12	+/-13	1.4%	+/-1.5
Public transportation (excluding taxicab)	1	+/-3	0.1%	+/-0.3
Walked	7	+/-11	0.8%	+/-1.2
Other means	0	+/-89	0.0%	+/-3.6
Worked at home	13	+/-14	1.5%	+/-1.6
Mean travel time to work (minutes)	26.3	+/-5.1	(X)	(X)
OCCUPATION				
Civilian employed population 16 years and over	910	+/-111	910	(X)

Subject	Youngstown village, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Management, business, science, and arts occupations	395	+/-90	43.4%	+/-8.1
Service occupations	138	+/-56	15.2%	+/-6.2
Sales and office occupations	246	+/-62	27.0%	+/-5.8
Natural resources, construction, and maintenance occupations	59	+/-30	6.5%	+/-3.2
Production, transportation, and material moving occupations	72	+/-35	7.9%	+/-3.7
INDUSTRY				
Civilian employed population 16 years and over	910	+/-111	910	(X)
Agriculture, forestry, fishing and hunting, and mining	0	+/-89	0.0%	+/-3.5
Construction	60	+/-29	6.6%	+/-3.1
Manufacturing	51	+/-28	5.6%	+/-3.1
Wholesale trade	0	+/-89	0.0%	+/-3.5
Retail trade	66	+/-37	7.3%	+/-3.8
Transportation and warehousing, and utilities	78	+/-47	8.6%	+/-5.0
Information	18	+/-17	2.0%	+/-1.8
Finance and insurance, and real estate and rental and leasing	47	+/-31	5.2%	+/-3.4
Professional, scientific, and management, and administrative and waste management services	80	+/-41	8.8%	+/-4.3
Educational services, and health care and social assistance	333	+/-77	36.6%	+/-7.6
Arts, entertainment, and recreation, and accommodation and food services	106	+/-49	11.6%	+/-5.2
Other services, except public administration	22	+/-18	2.4%	+/-1.9
Public administration	49	+/-30	5.4%	+/-3.2
CLASS OF WORKER				
Civilian employed population 16 years and over	910	+/-111	910	(X)
Private wage and salary workers	700	+/-108	76.9%	+/-6.1
Government workers	180	+/-54	19.8%	+/-5.7
Self-employed in own not incorporated business workers	30	+/-23	3.3%	+/-2.5
Unpaid family workers	0	+/-89	0.0%	+/-3.5
INCOME AND BENEFITS (IN 2011 INFLATION-ADJUSTED DOLLARS)				
Total households	786	+/-68	786	(X)
Less than \$10,000	30	+/-24	3.8%	+/-3.0
\$10,000 to \$14,999	27	+/-18	3.4%	+/-2.3
\$15,000 to \$24,999	57	+/-29	7.3%	+/-3.6
\$25,000 to \$34,999	63	+/-32	8.0%	+/-3.9
\$35,000 to \$49,999	132	+/-47	16.8%	+/-5.9
\$50,000 to \$74,999	182	+/-53	23.2%	+/-6.9
\$75,000 to \$99,999	109	+/-36	13.9%	+/-4.5
\$100,000 to \$149,999	124	+/-45	15.8%	+/-5.7
\$150,000 to \$199,999	45	+/-30	5.7%	+/-3.6
\$200,000 or more	17	+/-17	2.2%	+/-2.2
Median household income (dollars)	60,111	+/-3,783	(X)	(X)
Mean household income (dollars)	71,961	+/-7,200	(X)	(X)
With earnings	590	+/-67	75.1%	+/-6.0
Mean earnings (dollars)	66,752	+/-8,289	(X)	(X)
With Social Security	281	+/-58	35.8%	+/-6.5
Mean Social Security income (dollars)	18,060	+/-2,249	(X)	(X)
With retirement income	248	+/-53	31.6%	+/-6.7
Mean retirement income (dollars)	31,610	+/-8,220	(X)	(X)
With Supplemental Security Income	52	+/-33	6.6%	+/-4.1
Mean Supplemental Security Income (dollars)	13,767	+/-9,033	(X)	(X)
With cash public assistance income	8	+/-10	1.0%	+/-1.3

Subject	Youngstown village, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Mean cash public assistance income (dollars)	1,863	+/-1,678	(X)	(X)
With Food Stamp/SNAP benefits in the past 12 months	52	+/-30	6.6%	+/-3.6
Families	537	+/-56	537	(X)
Less than \$10,000	8	+/-9	1.5%	+/-1.7
\$10,000 to \$14,999	4	+/-9	0.7%	+/-1.6

Subject	Youngstown village, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	(X)	(X)	2.2%	+/-2.3
With related children under 18 years	(X)	(X)	3.1%	+/-3.7
With related children under 5 years only	(X)	(X)	12.5%	+/-20.9
Married couple families	(X)	(X)	1.0%	+/-2.1
With related children under 18 years	(X)	(X)	0.0%	+/-17.1
With related children under 5 years only	(X)	(X)	0.0%	+/-98.9
Families with female householder, no husband present	(X)	(X)	9.2%	+/-11.1
With related children under 18 years	(X)	(X)	14.0%	+/-17.0
With related children under 5 years only	(X)	(X)	40.0%	+/-60.0
All people	(X)	(X)	7.0%	+/-3.1
Under 18 years	(X)	(X)	3.9%	+/-3.4
Related children under 18 years	(X)	(X)	2.5%	+/-2.9
Related children under 5 years	(X)	(X)	10.0%	+/-10.8
Related children 5 to 17 years	(X)	(X)	1.0%	+/-1.6
18 years and over	(X)	(X)	8.0%	+/-3.8
18 to 64 years	(X)	(X)	8.8%	+/-4.4
65 years and over	(X)	(X)	4.8%	+/-5.7
People in families	(X)	(X)	1.7%	+/-1.6
Unrelated individuals 15 years and over	(X)	(X)	30.7%	+/-11.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Census occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC). The Census occupation codes for 2010 and later years are based on the 2010 revision of the SOC. To allow for the creation of 2007-2011 and 2009-2011 tables, occupation data in the multiyear files (2007-2011 and 2009-2011) were recoded to 2011 Census occupation codes. We recommend using caution when comparing data coded using 2011 Census occupation codes with data coded using Census occupation codes prior to 2010. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/ioindex/>.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2007-2011 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED MONTHLY OWNER COSTS AS A PERCENTAGE OF HOUSEHOLD INCOME (SMOCAPI)				
Housing units with a mortgage (excluding units where SMOCAPI cannot be computed)	407	+/-62	407	(X)
Less than 20.0 percent	176	+/-51	43.2%	+/-10.9
20.0 to 24.9 percent	50	+/-29	12.3%	+/-7.1
25.0 to 29.9 percent	67	+/-39	16.5%	+/-8.8
30.0 to 34.9 percent	26	+/-24	6.4%	+/-5.8
35.0 percent or more	88	+/-43	21.6%	+/-10.6
Not computed	4	+/-7	(X)	(X)
Housing unit without a mortgage (excluding units where SMOCAPI cannot be computed)	204	+/-48	204	(X)
Less than 10.0 percent	79	+/-35	38.7%	+/-13.1
10.0 to 14.9 percent	62	+/-28	30.4%	+/-12.8
15.0 to 19.9 percent	9	+/-10	4.4%	+/-4.8

Subject	Youngstown village, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
20.0 to 24.9 percent	16	+/-14	7.8%	+/-6.3
25.0 to 29.9 percent	11	+/-12	5.4%	+/-5.8
30.0 to 34.9 percent	10	+/-12	4.9%	+/-5.7
35.0 percent or more	17	+/-15	8.3%	+/-6.9
Not computed	0	+/-89	(X)	(X)
GROSS RENT				
Occupied units paying rent	165	+/-49	165	(X)
Less than \$200	0	+/-89	0.0%	+/-17.8
\$200 to \$299	6	+/-9	3.6%	+/-5.8
\$300 to \$499	0	+/-89	0.0%	+/-17.8
\$500 to \$749	109	+/-41	66.1%	+/-13.6
\$750 to \$999	45	+/-22	27.3%	+/-11.8
\$1,000 to \$1,499	5	+/-8	3.0%	+/-4.8
\$1,500 or more	0	+/-89	0.0%	+/-17.8
Median (dollars)	641	+/-17	(X)	(X)
No rent paid	6	+/-9	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	165	+/-49	165	(X)
Less than 15.0 percent	28	+/-16	17.0%	+/-9.9
15.0 to 19.9 percent	6	+/-9	3.6%	+/-6.2
20.0 to 24.9 percent	33	+/-29	20.0%	+/-15.9
25.0 to 29.9 percent	9	+/-12	5.5%	+/-7.7
30.0 to 34.9 percent	28	+/-21	17.0%	+/-11.6
35.0 percent or more	61	+/-29	37.0%	+/-14.0
Not computed	6	+/-9	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2007, 2008, 2009, 2010, and 2011 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

Median calculations for base table sourcing VAL, MHC, SMOC, and TAX should exclude zero values.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic

entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
